

## TAKE CONTROL OF MONITORING YOUR OIL TANK LEVEL

### Monitor and protect your Oil tank

There is a level of frustration, inconvenience and expense that occurs when you run out of Heating Oil or have a leak. With My-SmartSensor you will have peace of mind, full transparency and visibility of your tank.

My-SmartSensor allows you to have full visibility and data of your tank, anywhere, anytime. This will allow you to concentrate on your daily activities and not have to worry about your oil tank levels

### ADVANTAGES BY CONTROLLING YOUR FUEL SUPPLY:

#### LEVEL MANAGEMENT:

- Stop Heating oil run outs
- Oil Levels in Litres
- Low Level alert

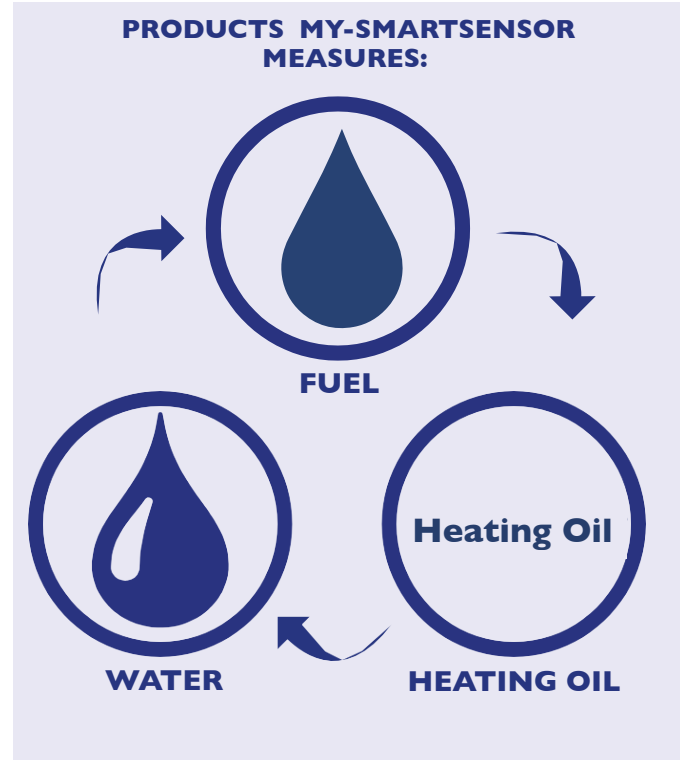

#### MINIMISE RISKS:

- Your Safety from manual oil level checks
- Keep your heating running smoothly
- Avoid insurance claims and premium increases

#### COMPLIANCE & PERFORMANCE:

- Carbon and Energy reporting
- Consumption reporting

### HOW IT WORKS:

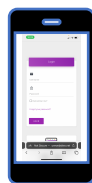

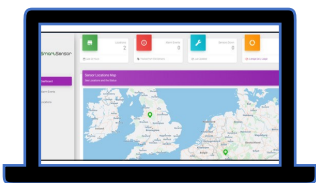

The sensor uses ultrasonic pulses to keep an eye on the amount of oil in your tank. This is accompanied with a built-in SIM card which sends this information to our secure data centre.

This data is then added onto your personal online dashboard which shows your current oil level. You can view your dashboard using any computer, tablet or smartphone. It's simple and easy to check, and you can do it from anywhere in the world, at any time.

When you subscribe to our service, we'll send you an update informing you when your oil levels are low.

### FEATURES:

Log in to your online dashboard and see all the data you need.
