

## TANK VOLUME MANAGEMENT SOLUTIONS

### Eliminate run outs

My-SmartSensor can monitor every tank in your business. These will range from Fuel to Lubricant tanks and a various range of other fluids. My SmartSensor will provide full transparency and visibility of your population of tanks.

My-SmartSensor allows you to have full visibility and data of your tank population, anywhere, anytime. This will allow you to concentrate on your business and not have to worry about tank levels. Allowing you to plan your logistical route and decrease your carbon footprint.

#### ADVANTAGES BY CONTROLLING YOUR FUEL SUPPLY:

##### LEVEL MANAGEMENT:

- Stop run outs
- Level visibility
- Increased traceability
- Stock Management

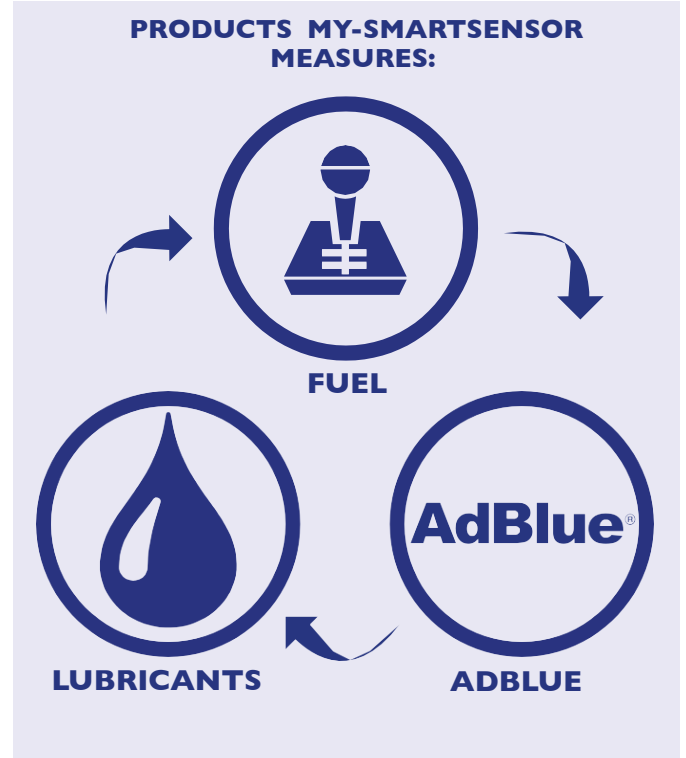

##### MINIMISE RISKS:

- Employee Safety
- Keep your business running smoothly
- Avoid insurance claims and premium increases

##### COMPLIANCE & PERFORMANCE:

- Carbon and Energy reporting
- Consumption reporting
- Logistic planning

#### VISIBILITY OF YOUR DATA:

With My-SmartSensor Dashboard, you will have full visibility of your Fuel & lubricant stocks. Which can be monitored on any web enabled device.

##### MULTIPLE PLATFORMS:

Whether you're on the go or in the office, the My-SmartSensor dashboard will provide you with up-to-date information of liquid levels across your tank population.

##### WEB DASHBOARD:

The web dashboard provides all the levels and data you need, presented in a clear visual format that gives you instant information and alerts.

##### MOBILE RESPONSIVE:

For people who need easy access whilst on the go and provides detailed information.

#### FEATURES:

Log in to your online dashboard and see all the data you need.
